Remarkbox is currently only available in English.

Allowing a Namespace owner to choose their default language but also allowing a user to override in their user settings could be a useful feature request. This feature has not been prioritized.

## **DIPA — Sep 30, 2018 10:23 am**

Hello Russel,

First, thanks for this tool.

A question : when will it be possible to get or to set translations? For example to be able to replace "What do you want to say ? markdown", or the "SAVE MESSAGE" button. It would help users who don't speak english.

Richard
