Snapshot: 2026-11-06T13:01:18Z
Generator: Remarkbox `1ba5b32`

This is a thread snapshot. The living document lives at the source URI above — it may have been edited, extended, or replied-to since.

Scan for living source

Yes, in your Namespace settings check the box labeled `Disable query strings as thread identifiers`.

If checked, both `example.com/page-1` and `example.com/page-1?a=2` will load the same thread.

You should turn this option on if your web site does not use query strings for page identification or navigation.
